This was an exciting and fun trip. We visited some of the most beautiful structures in Russia and at the same time, learned about the Russian Criminal Justice System. Making this trip will give nothing but good memories and wonderful experiences!!! The way in which I now view my life have changed ever since I decided to make an adventurous trip to a third world country. Traveling to Russia was an eye-opening experience which I will never forget. I learned to become more mature and grateful about the life I have. I feel I became more independent and confident about whom I am . I am proud of myself for being able to win a challenge I had proposed myself and obtaining great results that will make me enhance my life expectations and achieve greater challenges for my future."
