Visions of Spain, China, Italy and others danced in the heads of the San Diego State University-Imperial Valley Campus students who checked out the Study Abroad Fair in the John Stepping Art Gallery at the campus Wednesday in Calexico.

The event was put on by the school in order to inform students about the various forms of study abroad programs.

“We have more than 190 programs spanning over 50 countries,” said Miriam Castañon, international coordinator for the school.

“Everybody’s liking it and getting a lot of information,” she said. “We have students that are interested and are taking the next step today.”
